

## Camp & Retreat Ministry videos:

*produced in 2011*

The first two videos are excellent to use for a mission moment or during announcements before church. One gives a glimpse at children's camps, the other of multigenerational camp opportunities. The 3<sup>rd</sup> could be used to start an administrative board meeting, or in other small group settings, It is the story told from Capital Hill UMC's (Portland) perspective of why it's important for a church to have a camp!
